

# METAL-FREE BEAD SECURITY SEAL

## ONE-TIME SECURITY SOLUTION

Produced with metal-free bead technology, this seal is not affected by metal detectors. It enhances the security of products in the textile, footwear, bag, retail and many other sectors.

### TECHNICAL SPECIFICATIONS

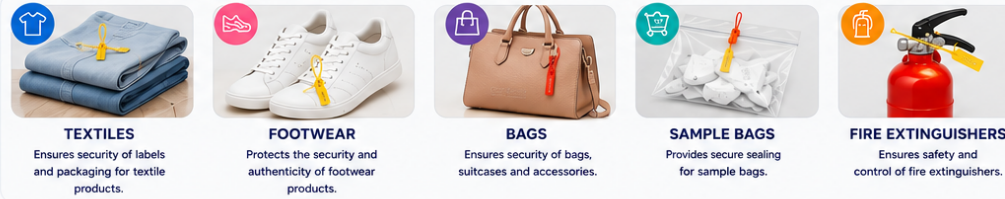

**SECURE AND DURABLE**  
The one-time locking mechanism increases product security. Any attempt to open will be immediately evident.

**EASY APPLICATION**  
The flexible beaded strap structure allows quick and easy application by hand. Applicable in seconds.

**TRACEABLE SECURITY**  
Serial number, barcode or QR code provides full traceability. Great advantage for logistics and stock control.
